OBJECTIVES

To utilize my knowledge of certified organic standards while engaging in the promotion of high quality certified organic foods.

BACKGROUND

I grew up on and helped to manage a certified organic dairy farm while in high school. My managerial and communication skills were developed while in charge of the stone picking crew each spring since the age of 12, along with many other responsibilities. Teamwork was expressly used for planting and harvesting crops with a minimum of help. A good work ethic and the ability to succeed in tasks on my own were also elements of training instilled in me from very young. I have used also these skills to accomplish assigned tasks at the University Advancement program for Austin Peay State University as part of my scholarship program.

ACHIEVEMENTS

- Admitted into the prestigious Austin Peay State University Honors Program
- Presented with the Howell C. Smith Scholarship in Freshman year
- Maintain a GPA of 3.5 or above in both Freshman and Sophomore years
- A New Holstein High School Graduate with accumulative GPA of 3.7
